Appendix - Swim England Transgender and Non-Binary Competition Policy

Swim England has updated its Transgender and Non-Binary Competition Policy and this becomes effective on 1st September 2023. All Swim England affiliated bodies are required to implement this policy and this Meet is being held in line with this new policy. Under the policy competitions where the results will be submitted to Rankings (as is the case for this meet) must be held with the following categories:

Female – Swimmers with a birth sex of female and categorised as female in the Swim England on-line membership system.

or

Open – Swimmers with a birth sex of male, Trans or non-binary swimmers and any swimmers not eligible for the female category.

For the avoidance of doubt, swimmers eligible for the new Female category may not enter the Open category. The word “Mixed” used in the Schedule of Events above means that Female and Open category swimmers will swim together in the event.

Further details on the policy and the definitions can be found at

<https://www.swimming.org/swimengland/transgendercompetition-policy-update/>

Currently, our meet management software is not capable of using the new categories, nor is the entry system, the timing and scoreboard software, the start lists and results smartphone apps, or any of the software tools used to run the meet. It is not clear when all such applications will have the new categories enabled. It is inevitable, and this is recognised by Swim England, that there will be a period of transition and that the terms male (and other legacy terms) will continue to appear on scoreboards, webpages and documents. However, where this happens, the terms “Ladies” and “Women” should be taken as referring to the new Female category and all other terms as the new Open category
